Testimonials

Hi Bruce,

Actually I rather enjoy talking to fellow inventors. It gives me the opportunity to learn if all of us have the same kinds of problems (we do!) and the chance to tell them about a real live agency like Tallgrass and what nice ethical people you are.

It's my pleasure but, if you would prefer a letter, OK.

Regards,

Dr. William (Bill) Marshall

Bruce and Bill,

Thank you for your continued interests in working with us to market our technology

I have spoken with Dr Marshall and Alan Carpenter and have received an email from Dave Baggott all expressing positive feedback in working with both of you.

Regards,

Hello Dave-

I wanted to ask if I can use you as a Referral for potential clients. The best part of your story is the fact that you had utilized the "services" of one of our "competitors" with no luck. Thank you in advance.

Regards,

Bruce

Bruce-

Sounds good. I appreciate the effort. Who knows, maybe paul allen will like it so much he can back the whole deal. Keep up the good work. No problem, use me to the best of your ability. I am glad to help out.
